

As per the scope of the business, Steel Processing (Midlands) Limited carry out “**Processing of strip mill products and the production of cold-rolled mild steel in the form of slit coil, sheared blanks and strip**”. It is a professional and environmentally conscious company and recognises its responsibilities for the wider environment and to the local community. It is committed to comply with all relevant environmental legislation as well as any requirements set out by our customers at local, regional and national level, as a minimum performance, and to continually improve environmental performance through appropriate initiatives, controls, provision of resources and training of employees. The aim is to minimise adverse impacts on the environment of activities, products and services.

An Environmental Management System has been established that complies with the International Standard ISO 14001: 2015. This promotes a culture of environmental protection in all company systems and procedures, under the direction of the senior management team and with the support of all employees and supply chain partners.

Management objectives and targets are established and reviewed on a regular basis to implement the Environmental Policy. These are based on a commitment to environmental principles:

- Prevention of pollution
- Promoting product reuse, recycling and use of sustainable materials
- Minimise waste generation and apply responsible waste management and disposal techniques
- Minimise use of energy, materials, utilities
- Reduction of carbon-based emissions
- Substitution of hazardous and non-recyclable materials
- Maintaining high workforce awareness of environmental issues
- Involving suppliers, subcontractors and customers in environmental initiatives
- Considering the external and internal issues and interested parties

The effectiveness of the EMS is monitored and maintained by regular internal audits and management review. This Environmental Policy is communicated to all employees and made available to the public on request. The company through effective communication procedures encourages the involvement of its workforce and external interested and affected parties in its Environmental Policy.
